

Important Notes for Installation of TRIBECA doors

These doors are designed to feature the beauty of glazed door enhanced by narrow door components. As such, extra care must be taken to avoid glass breaking during installation.

1. Maximum trimming allowed on each door edge is 5mm only.
2. As the pine core will be exposed after trimming touch up is required paint of RAL9005 black with glossiness 10-15%.
3. Due to the weight of the glass, the minimum number of hinges to be used is 3 hinges.
